

We are hiring saw operators for our client in Denver. Saw operators are responsible for proper cutting, picking, and stacking of materials. A strong belief in the mission and goals of the company and the capability of working in a team environment are necessary for this position. The cutting is primarily done by a machine ran by a computer. Must be comfortable on a computer and very strong attention to detail as they will need to manually measure each cut to ensure quality of the product. The client would like to diversify their work force. Women and Spanish speakers are encouraged to apply.

Hours: Mon - Fri 2:30pm to 12:00am

Pay: \$16/hr
