

Are you looking to be a part of a dynamic and growing company where you build your own future? Whether you are new to the workforce, or an expert in your field, Hamon has exciting opportunities waiting for you!

At Hamon, we are enthusiastic about helping you develop your career through continuous learning opportunities. We provide an environment where you can reach your fullest potential. Beginning on your first day and continuing throughout your career, Hamon provides the opportunity for you to develop a long and rewarding profession.

## **ABOUT HAMON INFRASTRUCTURE**

Hamon Infrastructure was founded in 1990 based on the belief that hard work, delivering on promises made, perseverance, and honesty would provide a good foundation for a business. Today, Hamon Infrastructure has successfully built highway and bridge projects throughout Colorado and New Mexico, for owners ranging from small municipalities and national developers to Departments of Transportation. Delivering on the promises made every day.

We perform with integrity and a drive to exceed the standard of excellence that is a hallmark of our work. We support those communities in which we live and work through charitable contributions because we live in those communities served by the infrastructure that we build.

## **THE JOB: HEAVY EQUIPMENT OPERATOR**

Hamon Infrastructure is currently seeking Heavy Equipment Operators. The Heavy Equipment Operators will be primarily responsible for safely operating heavy equipment under general supervision and following safety standards. This position is for the Greater Denver area and travel (if any) is extremely limited. Hamon is an equal opportunity employer and offers competitive wages.

## **ESSENTIAL DUTIES AND RESPONSIBILITIES**

- The safe operation of company equipment under general supervision
- Loader, excavator and more
- Regular inspections
- Ensure project safety rules and environmental regulations are followed at all times.

## **QUALIFICATIONS**

- Ability to work with other crew, superintendents, and subcontractors
- Ability to access all points of a construction site in wide-ranging climates and environments
- Understand grades, grade/slope stakes, and basic plan reading.
- Valid driver's license

## EXPERIENCE

- A qualified candidate will have 2-3 years of operating experience, preferably in heavy civil construction.

## PHYSICAL DEMANDS:

Primary functions require the physical ability and mobility to repeatedly work overhead, kneel, crawl, push, pull and climb equipment as required by task. Ability to frequently lift 25 to 50 pounds.

## BENEFITS

We are an employer that takes care of you beyond your salary. We have several benefits available for our salaried employees:

- 401K
- Medical insurance at **NO COST** and includes family coverage

*Compensation based on experience*

## CORE VALUES

Hamon's culture thrives on strong principles, hard work, and delivering on promises made. These ethics are reflected in our core values which define the cornerstone of our company culture.

### *Safety*

Creating and maintaining a safe work environment is the most fundamental and important aspect of our work. Our commitment to safety extends beyond our employees and project owners to members of the traveling public who travel through our projects every day.

### *People*

Our most important resources are the employees of Hamon Infrastructure. Without them, we could not perform with the integrity and drive that is the foundation of our company.

### *Integrity*

We conduct our business with the highest level of integrity. We are straightforward, honest and deal fairly with everyone.

HEAVY EQUIPMENT operator

*Excellence*

We never stop striving to provide the highest quality and services. We train promising individuals to continue and build upon our reputation for excellence. We build it right the first time, on time, and on budget.

*Environment*

We are committed to performing all work to minimize any resulting impacts to the environment and to comply with all applicable laws, rules, and regulations pertaining to construction activities and pollution prevention
