

Apprentice Electrician I

We are a growing electrical contracting company based in Golden, Colorado that offers its employees the structure and support of a large company, while maintaining the harmony of a small, yet efficient business model.

The Company: Integrity Electrical Solutions has been in business for 11 years and specializes in electrical service and construction solutions for residential and commercial clients.

One of the keys to Integrity's success has been the camaraderie and support felt among employees throughout the organization. Happy employees make happy customers!

We believe that each employee contributes directly to the growth and success of Integrity Electrical Solutions. Despite our company's growth, we maintain a tight-knit, family-like culture that contributes to our employee's sense of belonging.

The Position: Entry-level, on-the-job training program working directly under the supervision of a licensed Journeyman Electrician that will learn and apply basic electrical and construction principles, duties include digging trenches for running underground electrical pipe (conduit), load / unload equipment and material, pull wire and install electrical devices (maybe small or large), learn how to bend conduit and install it, get material to help the journeyman complete tasks and end of day cleanup. Responsible for completing all assigned work in a professional, timely and efficient manner.

The Location: Integrity Electrical Solutions is based in Golden, Colorado, and serves the entire Denver-Metro area.

Why Should You Apply?

We know you by name, not your employee number!

Job Type: Full-time

Pay: \$17.00 - \$18.00 per hour

COVID-19 considerations:

To keep our employees and customers safe, we do require our service electricians to wear face masks, gloves, and booties when at a customer facility, along with thoroughly cleaning up the worksite after a job is completed.
